PHILOSOPHY OF COLLECTION

Every piece in our new collection has been selected with love & passion for design that is inspired by our long journey to explore different cultures around the world.

A creative blend of Organic materials & elegant design, all brought to life to be the perfect addition to your space...

WORK OF ART...

COLLECTION

Excitement fills the air as we proudly present our latest collection of luxury home decor accessories.

This collection is an organic extension of my evolving East Meets West design philosophy, born from my experiences crafting private sanctuaries and luxurious hotel spaces.

It's an ode to the allure of organic shapes, rich textures, and elegant geometry, all brought to life with the highest quality materials.

Get ready to transform your home into a haven of timeless elegance.

MATERIALS

Embrace the timeless allure of travertine and white quarter, where classic design meets the subtle art of reflection, enhanced by the craftsmanship of straw marquetry.

Discover an era of elegance with a dash of Art Deco flair in our latest interior design line.

Incorporating high-quality materials in interior design isn't just about creating beautiful spaces; it's about crafting functional, and sustainable environments that stand the test of time.

It's an investment in the comfort, aesthetics, and long-term value of a space, demonstrating a commitment to excellence and a deep appreciation for the art of design.

MODERN ART- DECO COLLECTION

Art Deco furniture is a fusion of timeless craftsmanship and modern materials, defined by symmetrical, clean, rectilinear lines.

Our 'Art Deco Collection' captures this essence, creating a bridge between tradition and innovation.

It's a celebration of symmetry and contemporary design, ensuring that your space echoes with both the past and the future."

THE PYRITE COLLECTION

Pyrite forms in sedimentary rocks in oxygen-poor environments in the presence of iron and sulfur.

These are usually organic environments, such as coal and black shale, where decaying organic material consumes oxygen and releases sulfur.

Pyrite often replaces plant debris and shells to create pyrite fossils or flattened discs called pyrite dollars which look very elegant when it is converted into furniture's.

THE MARAYA COLLECTION

'Maraya,' in Arabic, means 'mirror' or 'reflection.' It's a profound concept—where you meet the past and the future simultaneously in the same moment.

Our 'Maraya Collection' invites you to experience this phenomenon through exquisite reflective mirrors. Architect Florian Boje once said, 'The mirror adds another level of perception.'

Explore your own reflection in these pieces, where time and self converge."
